

BERYN HAMMIL DESIGNS MONTHLY

March 2008

COMPLETING A BEAUTIFUL KITCHEN REMODEL IN JUST THREE WEEKS TAKES PLANNING AND ORGANIZATION.

A complete kitchen remodel in just three weeks!

By Beryn Hammil

When a homeowner wants a new look for the kitchen, but doesn't want it to disrupt life for months on end, it takes a combination of good design, organization, and reliable resources to get it done quickly.

This kitchen is a perfect example of how we can accomplish the desired results; a beautiful kitchen, on time and on budget!

Beryn Hammil Designs started the design by working within the existing footprint of the kitchen. Because we didn't have to pull out cabinets, relocate plumbing, electric,

and gas lines, it was easy to create the new look the client wanted in just three short weeks.

The first step in this project was planning. We worked with the client to select and purchase new appliances and fixtures. Simultaneously we selected a reliable kitchen remodel company who presented cabinet door, drawer, and counter top samples that could meet our high standards and installation schedule. Next we coordinated the carpenter, electrician, and plumber:

Only after everything was ordered, delivered, and safely stored in the garage did demolition begin.

As a design firm, we pride ourselves on being able to handle all the project's details, thus giving our client the luxury of being able to leave town while the kitchen was being remodeled.
